Population Growth: **Dubai**

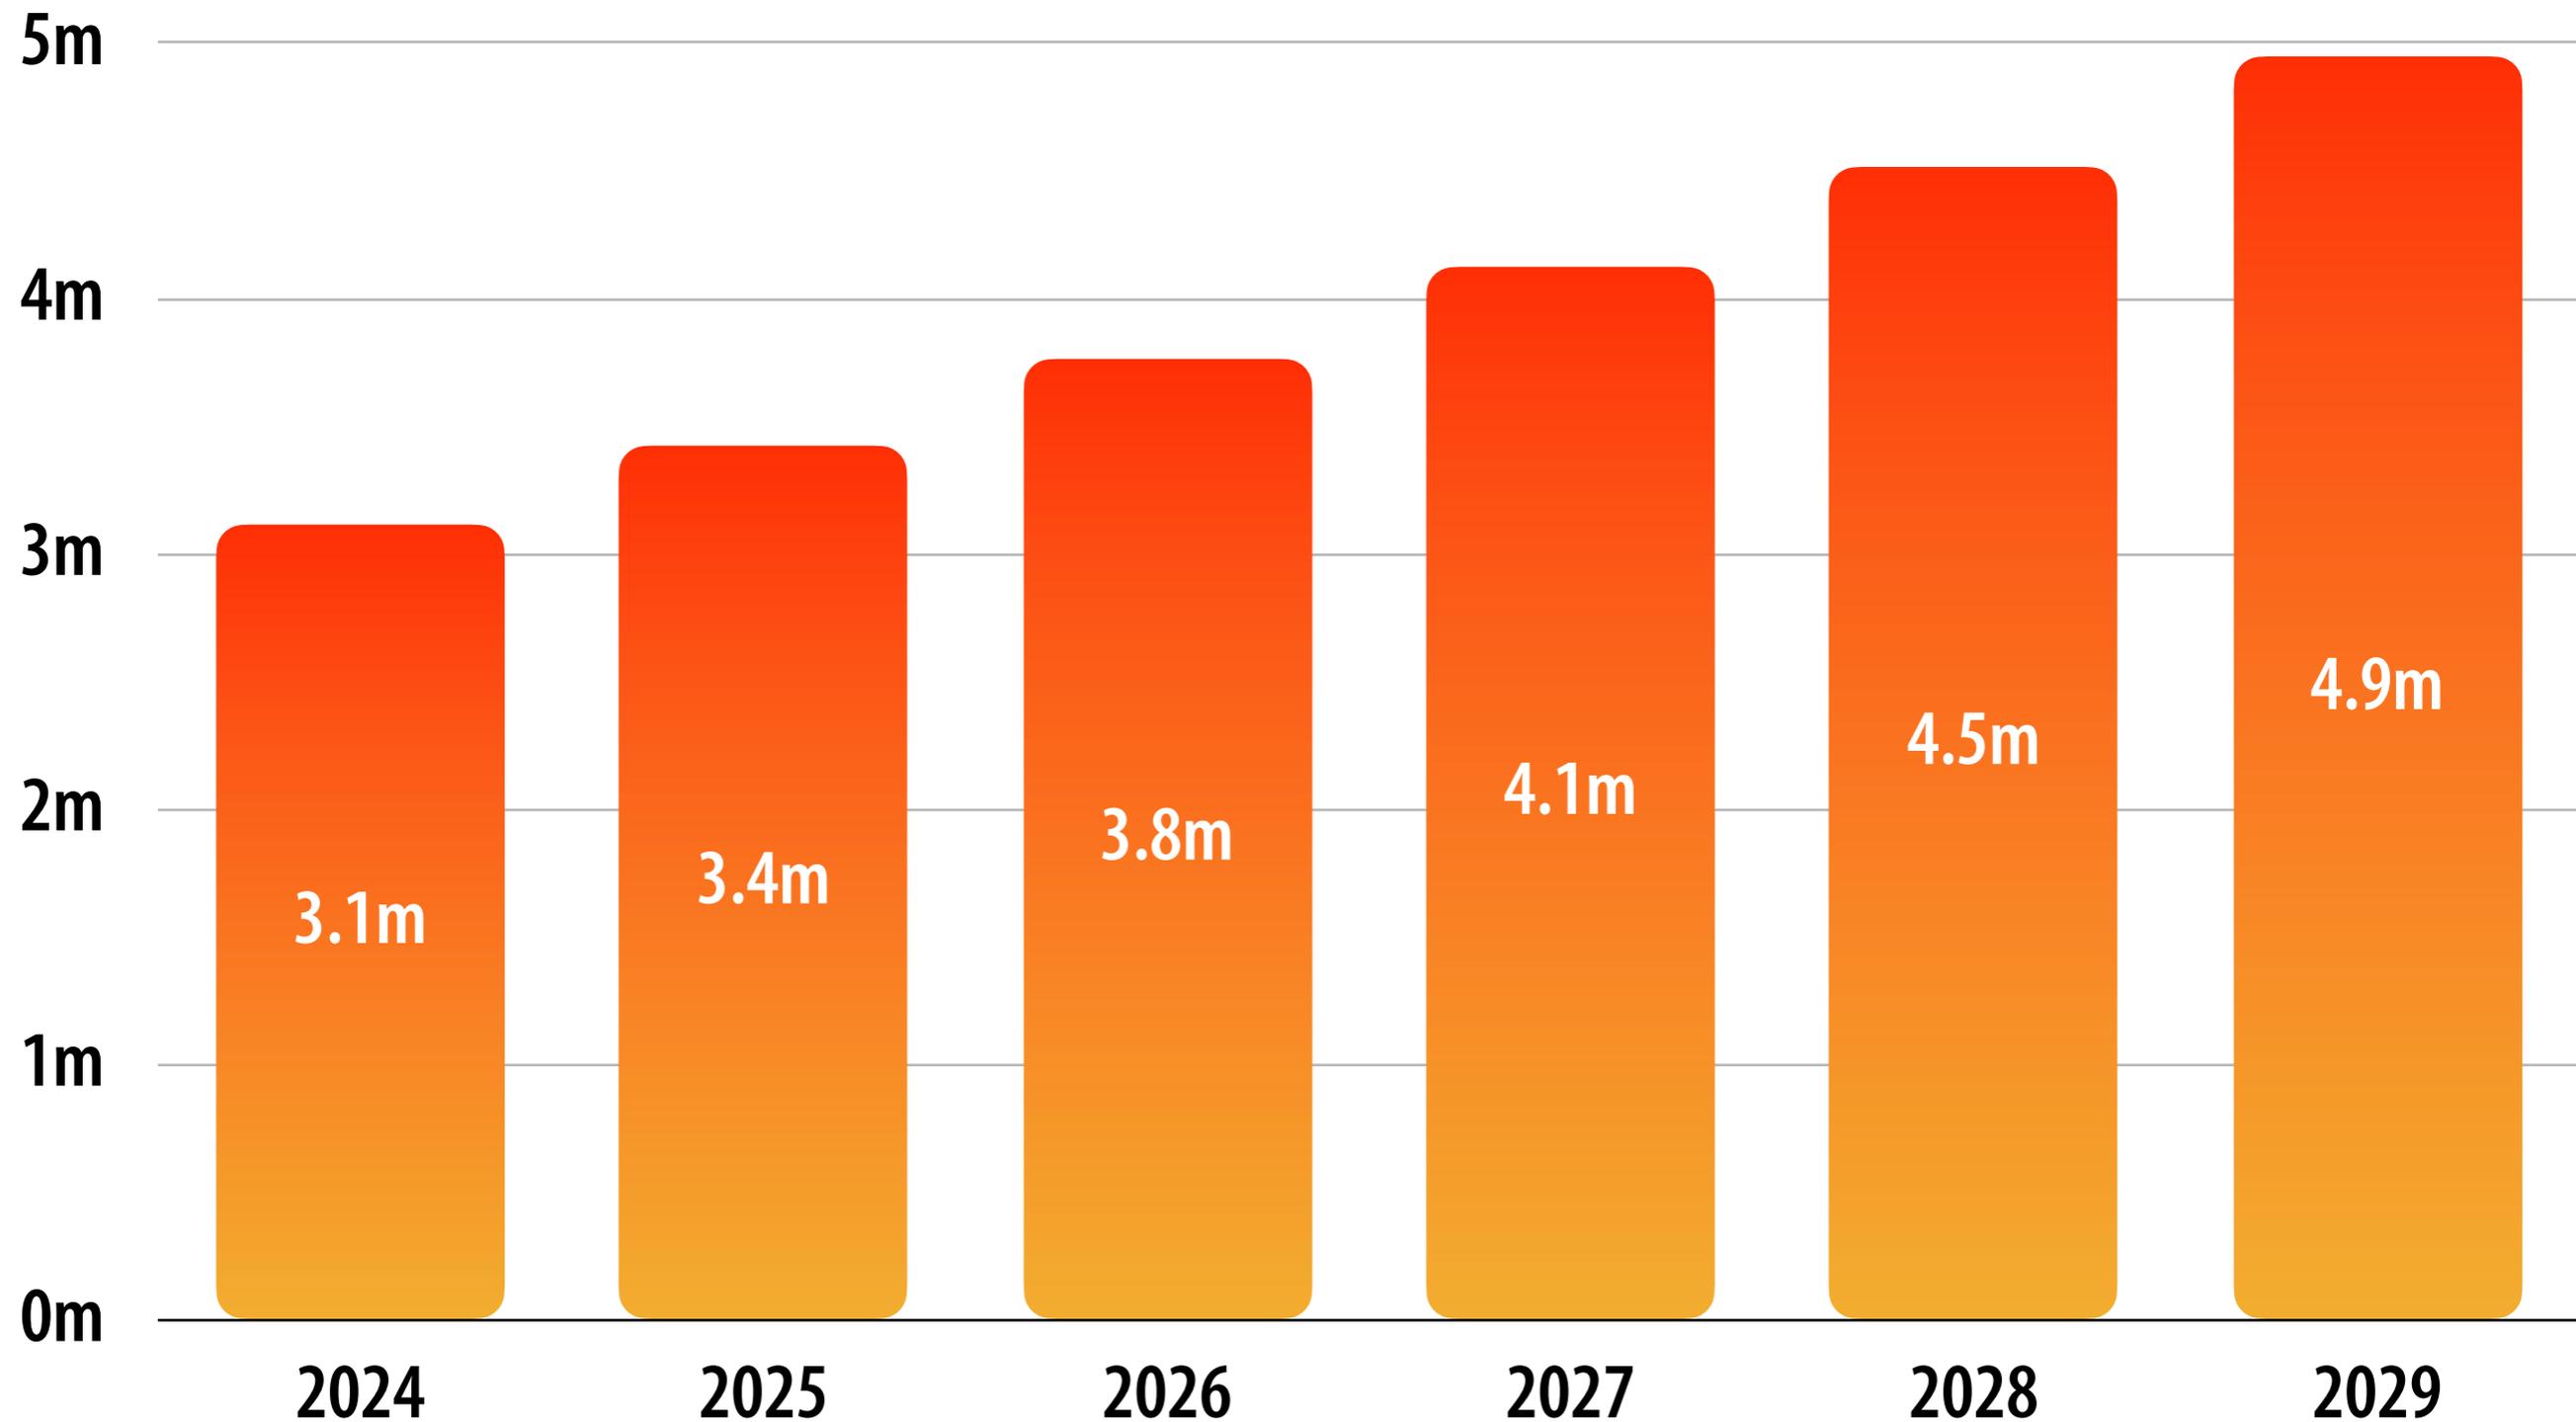

Population Growth

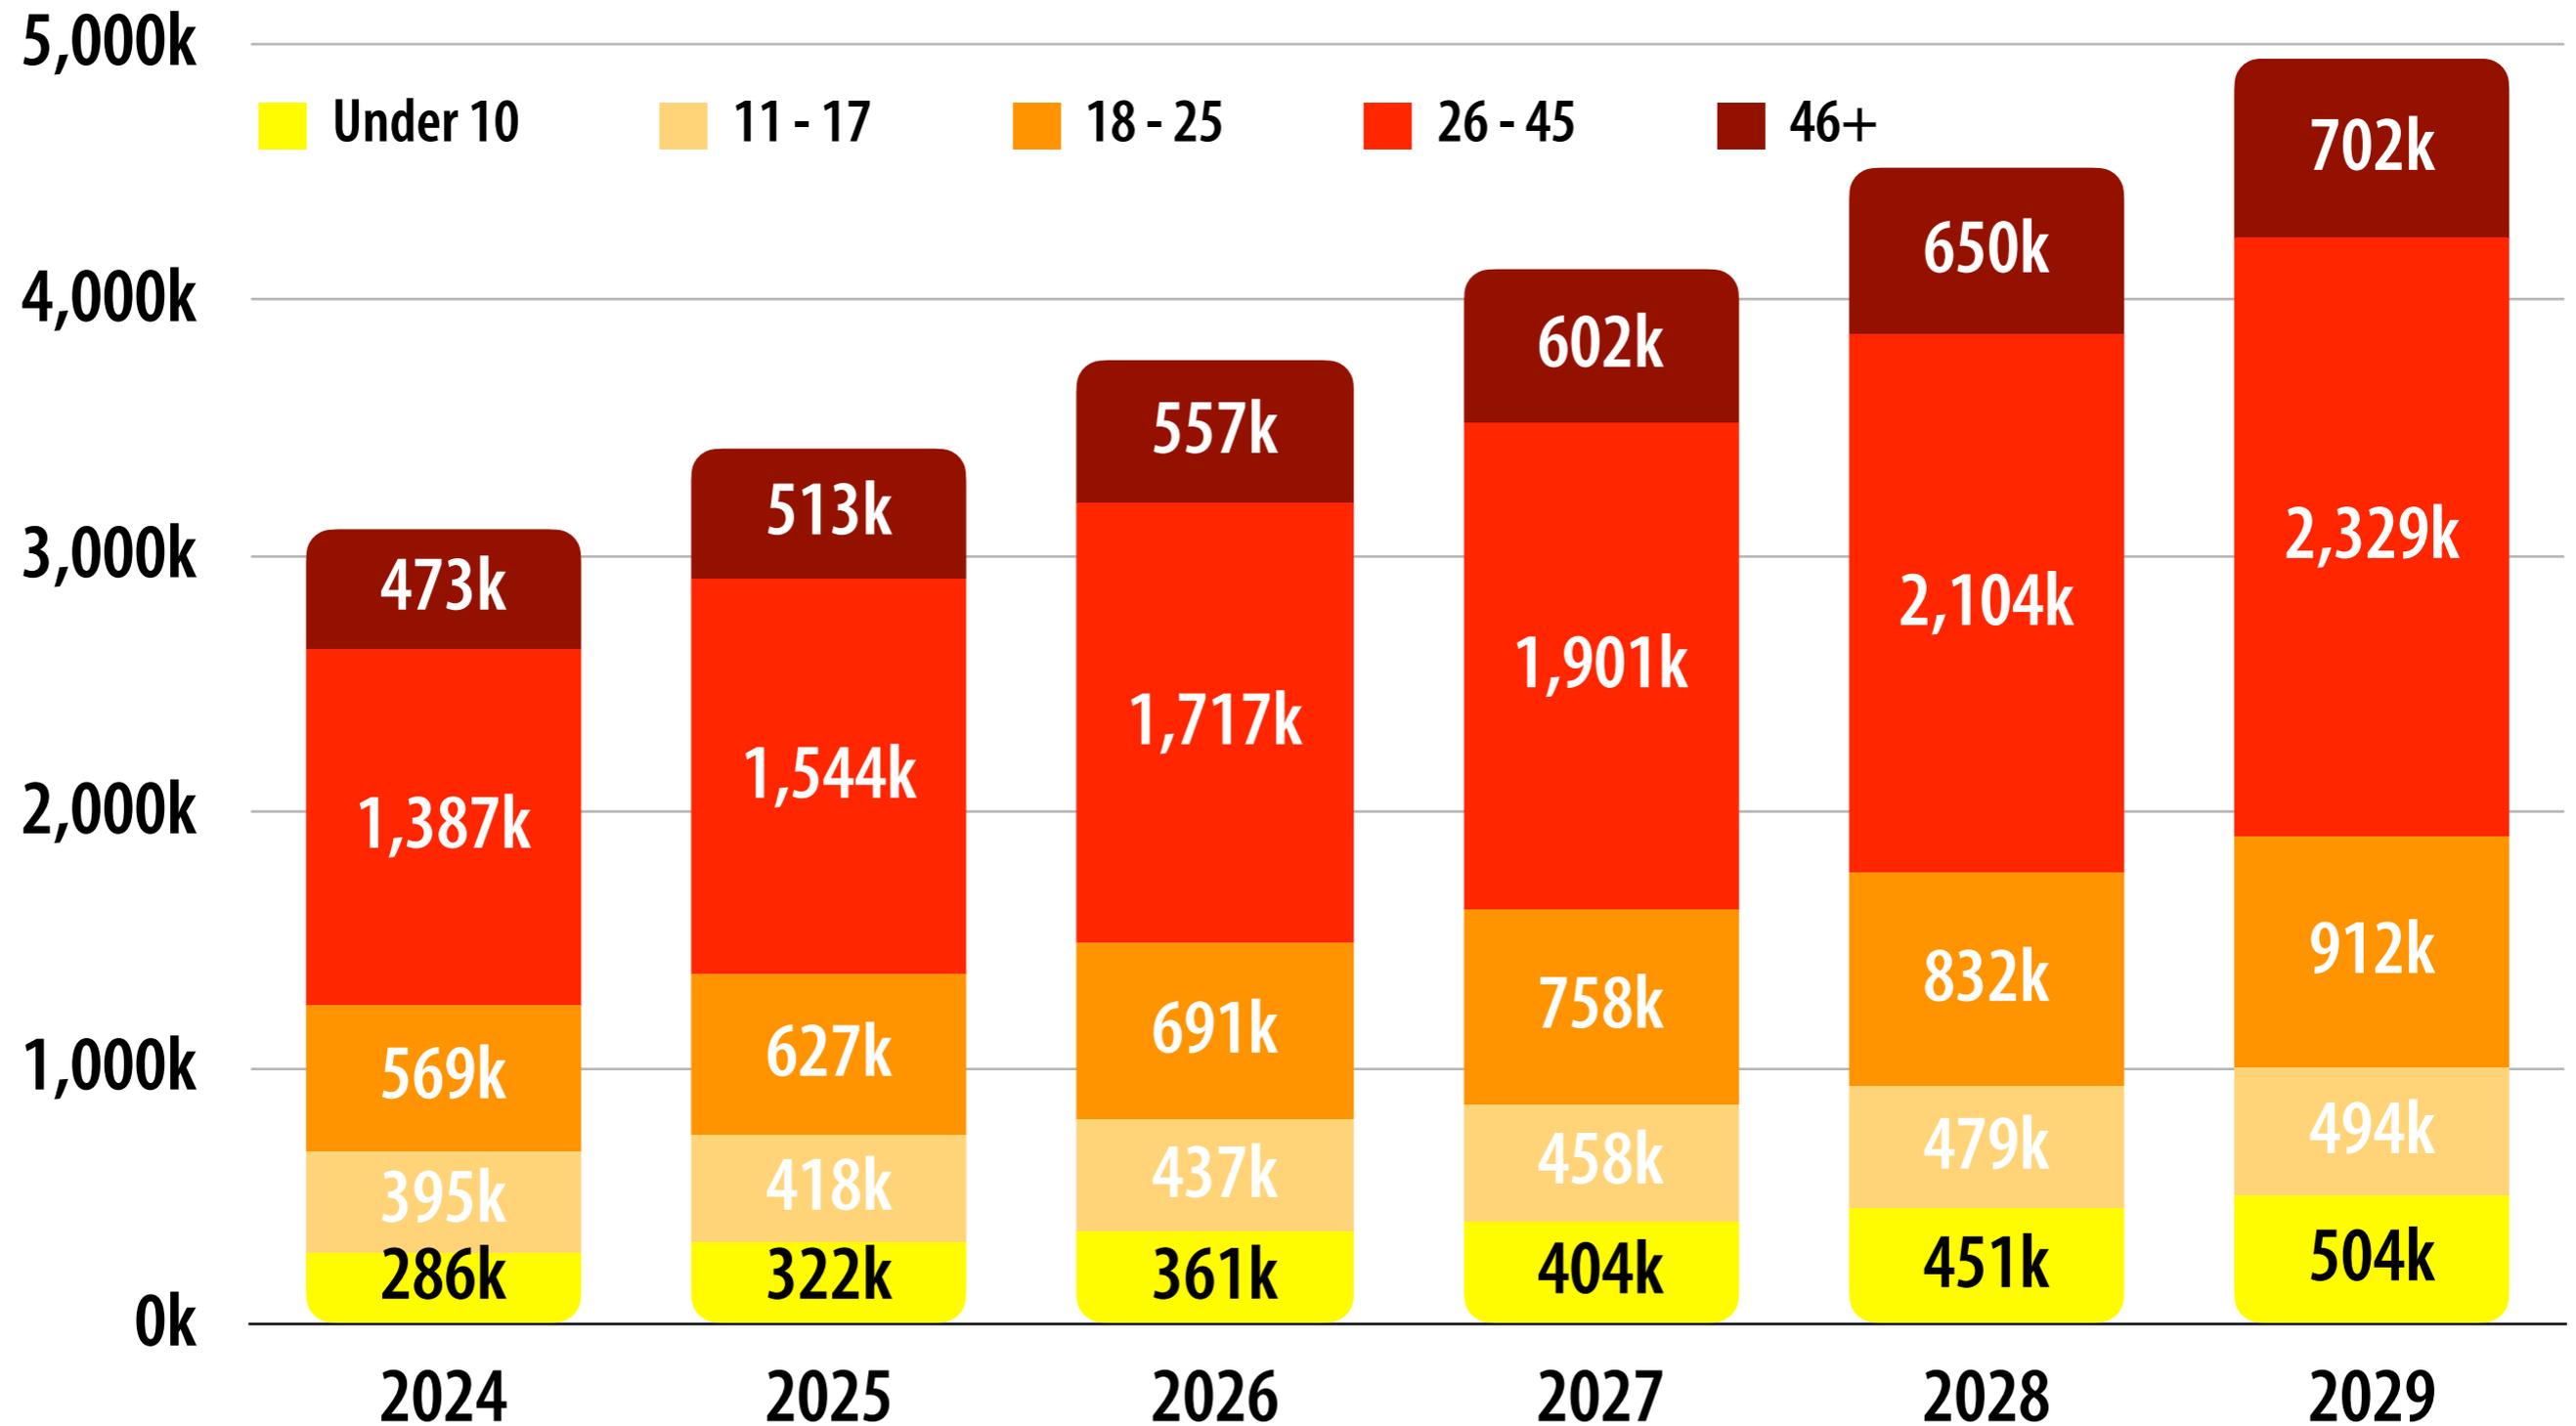

- ① **Total Population:** We forecast the overall population of Dubai to grow from 3.1m in 2024 to 4.9m in 2029. An increase of 1.8m, led primarily by an increase in ex-pat business people and families
- ① **CAGR:** This growth increase results in an overall CAGR of 8% from 2024 to 2029
- ① **Primary Age Ranges:** The age range of 26 - 45 is the largest proportion, as a result of the business-intensive demographics of Dubai. We forecast this age range to account for 44.6% of the total population in 2024, rising to 47.1% in 2029
- ① **Fastest Growing Age Range:** We expect the under 10 year-old age bracket to be the fastest growing segment as settling business people create families in Dubai

Metaverse Penetration: **Dubai**

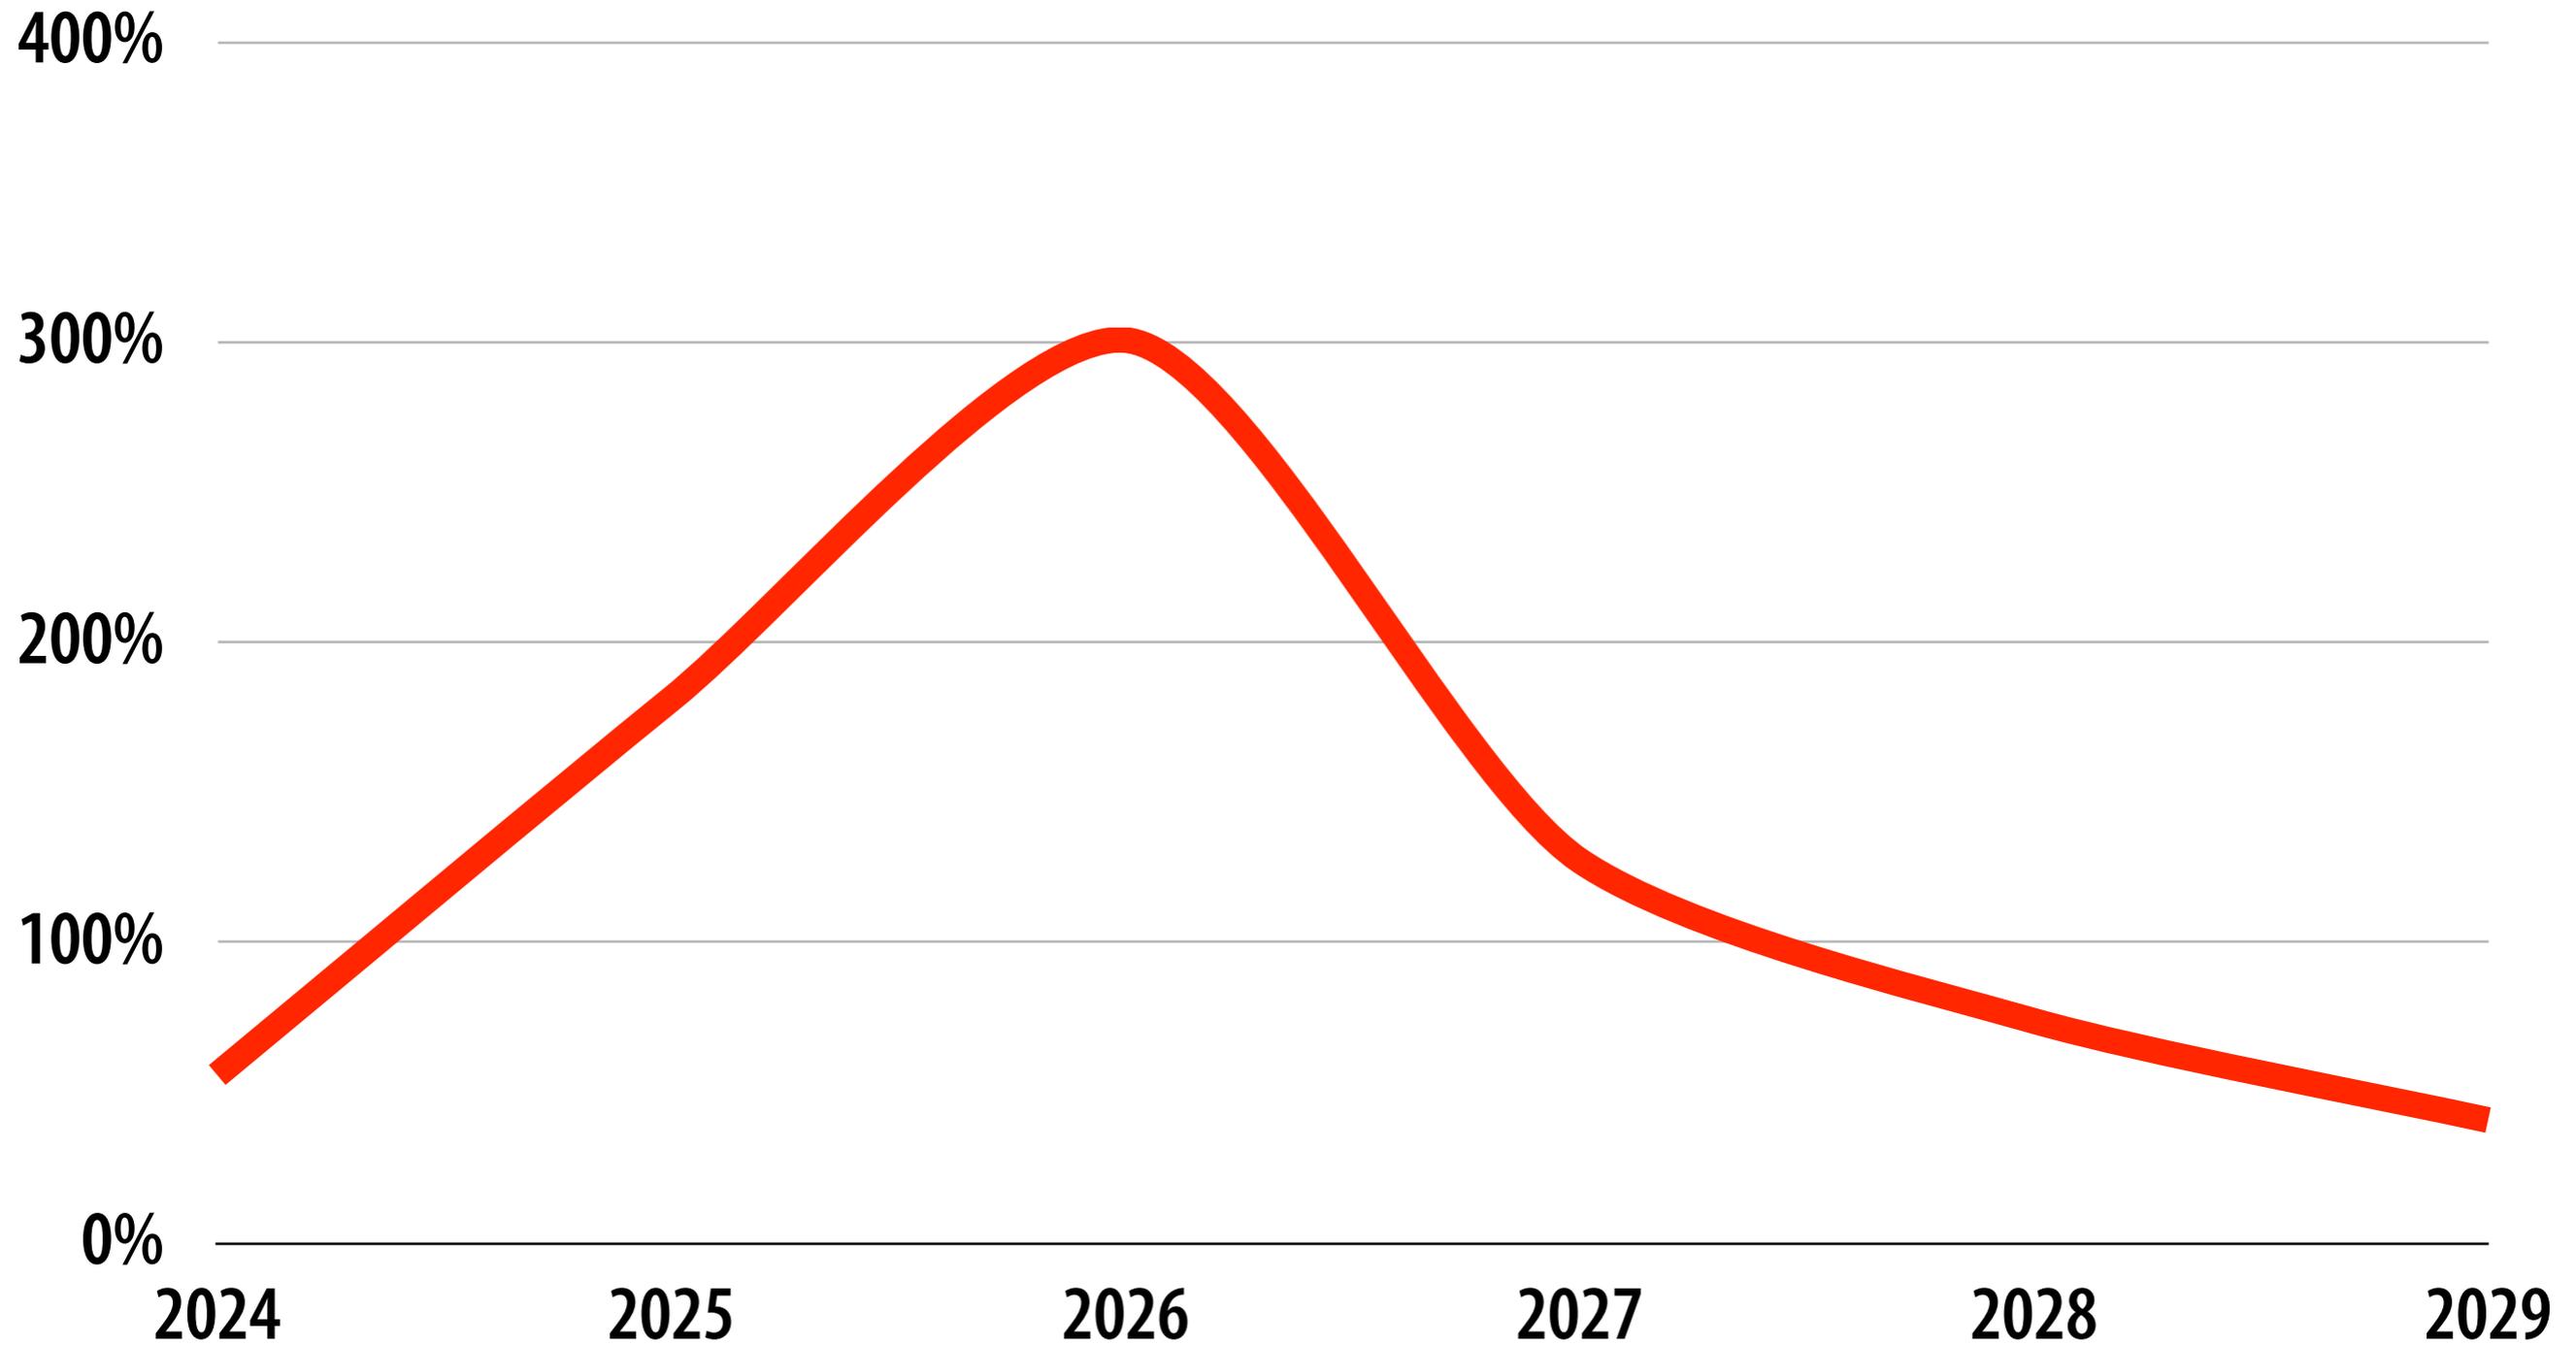

Metaverse Growth and Penetration

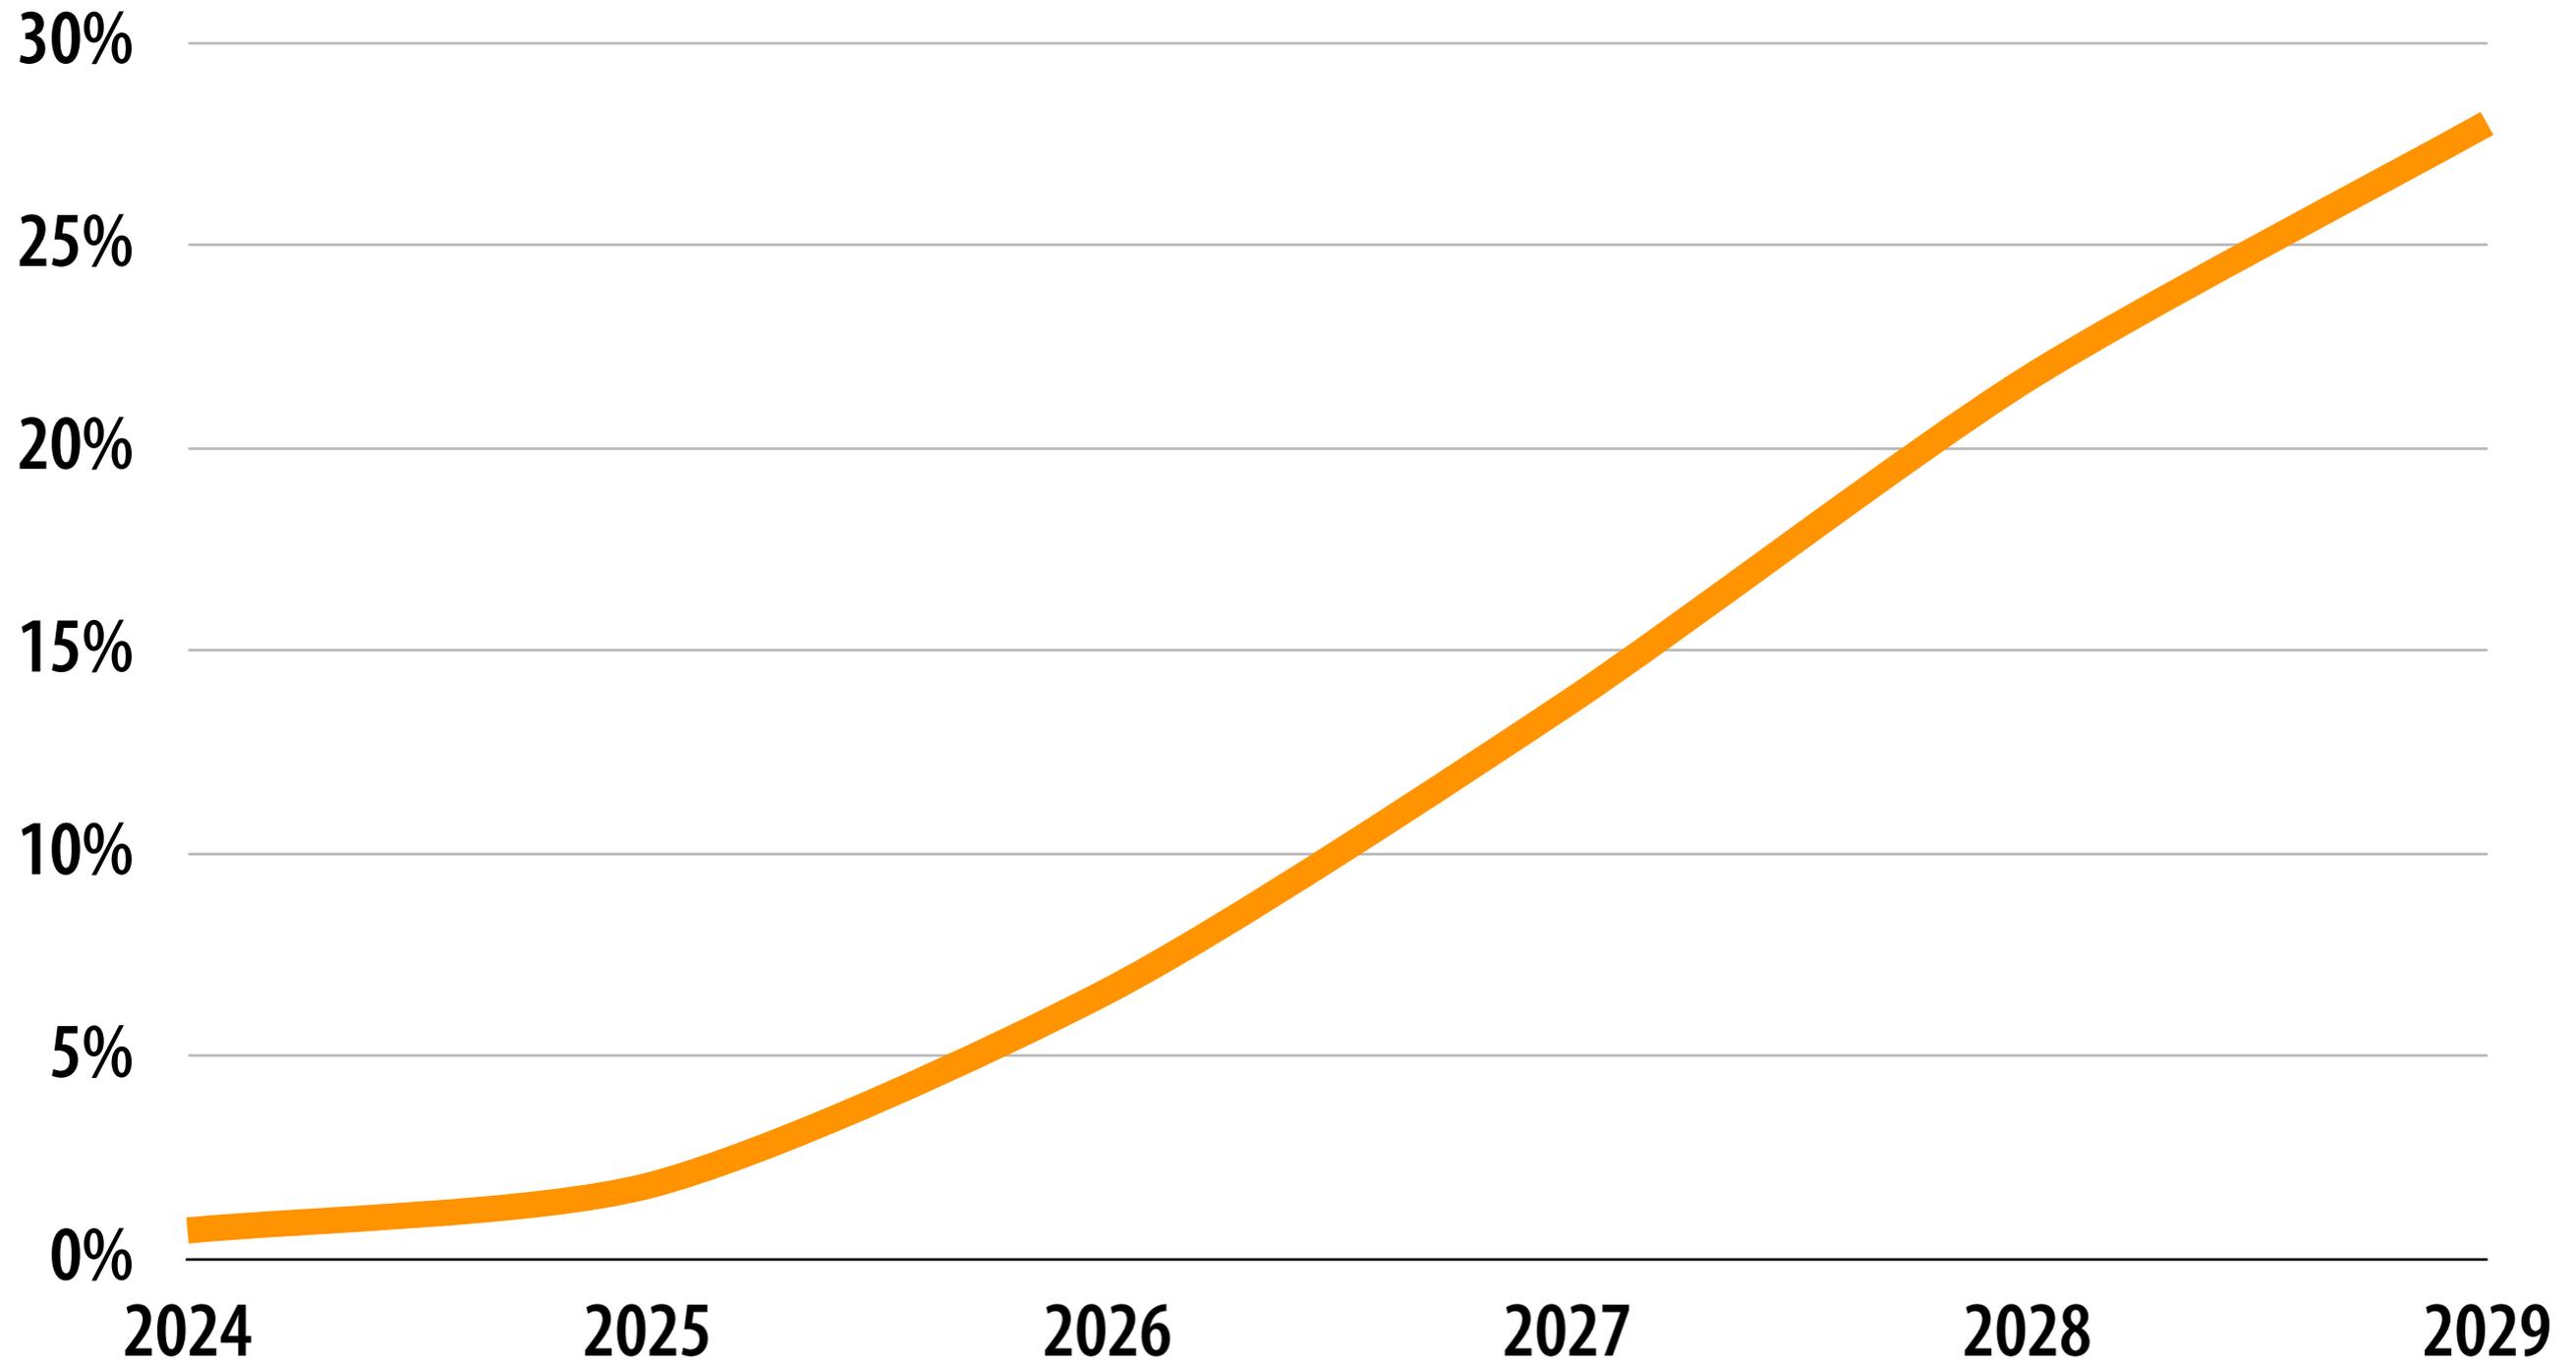

- 🎯 **Metaverse Growth:** We are bullish on the growth of the Metaverse in Dubai primarily due to the high number of government-backed and private-sector projects and initiatives across a wide range of sectors
- 🎯 **Growth Rates:** We forecast an average annual increase in Metaverse growth of 144%. We expect this growth to be the highest between 2025 and 2027 as a range of new Metaverse projects are launched and promoted
- 🎯 **Growth by Age Range:** We anticipate strong increases across all age ranges with 11-17-year-olds and 18-25-year-olds leading the growth expansion
- 🎯 **Penetration Rates:** From a modest starting point of 0.7% penetration in 2024, we forecast a rate of 13.7% in 2027 growing to 28% in 2029 by which time all Metaverse initiatives should be fully operational and adopted

Metaverse MAU: **Dubai**

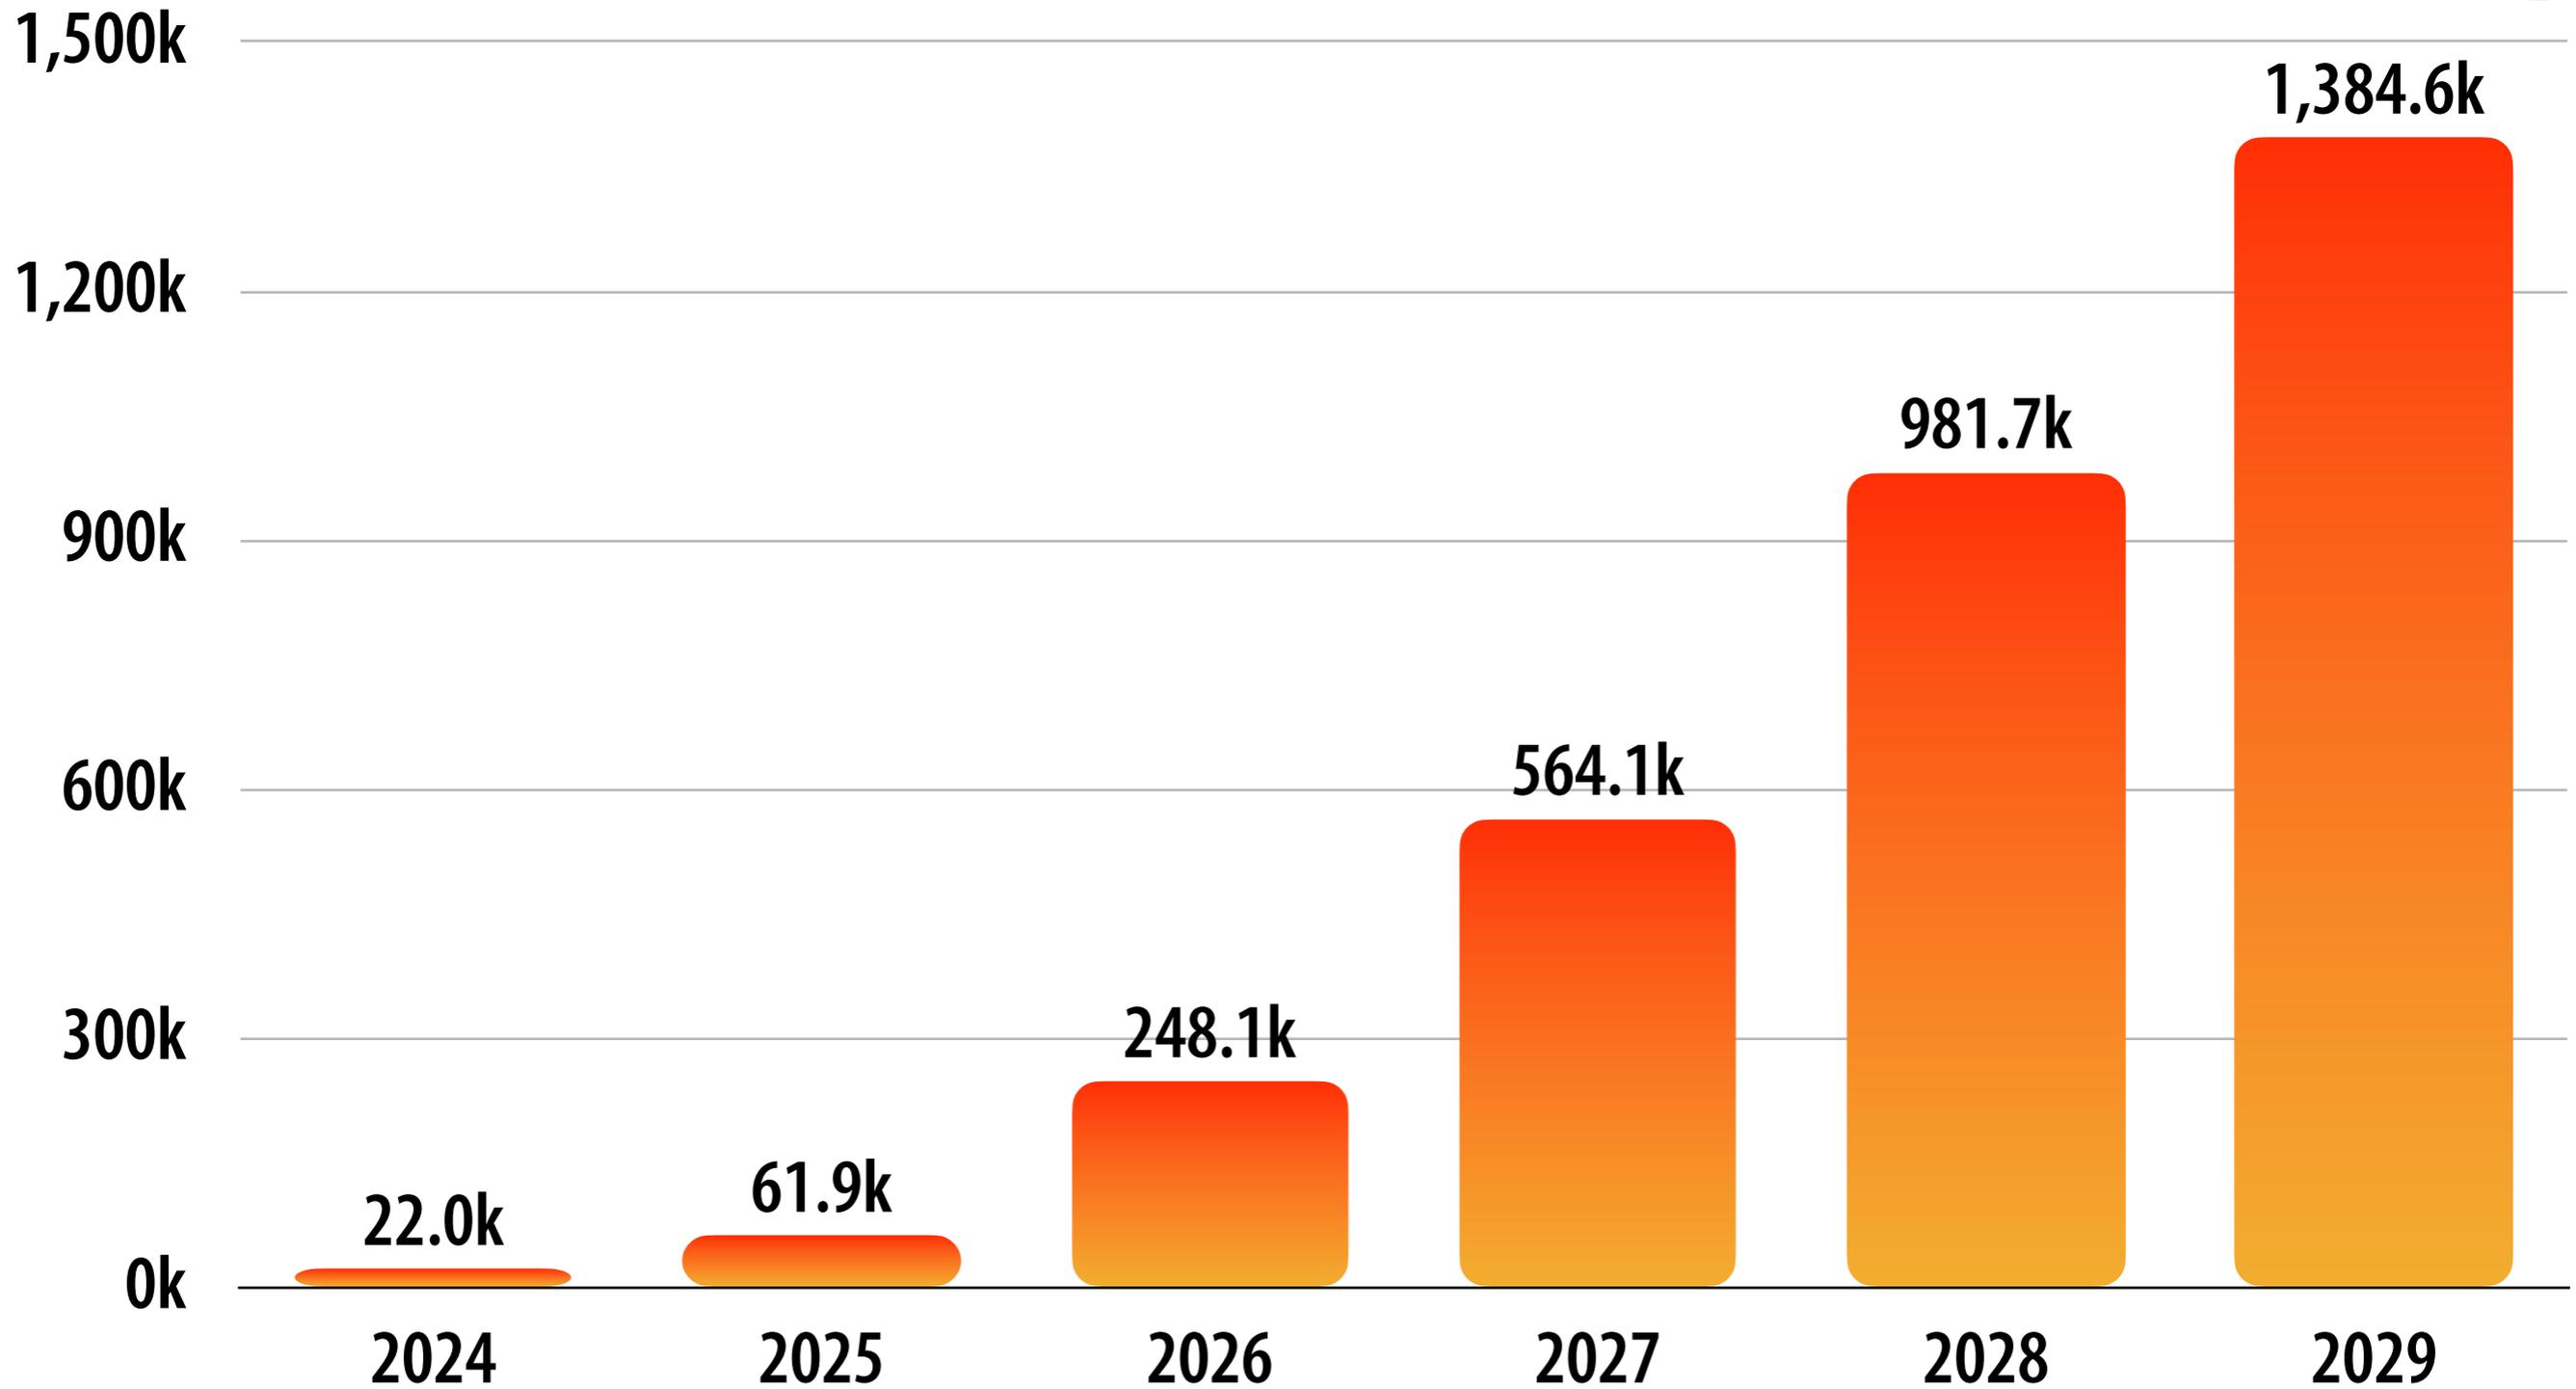

Metaverse Monthly Active Users

- 🕒 **Growth in MAU:** We forecast a CAGR of 99.4% from 2024 to 2029. This equates to 22k in 2024, 248k in 2026, rising to 981k in 2028 and 1.3m in 2029
- 🕒 **Dominant Age Range:** We expect the 26-45-year-old age range to be the largest group of Metaverse users on an MAU basis, equating to 523k in 2029. This is a factor of increased adoption and being the largest proportion population group in absolute terms
- 🕒 **Respective Age Ranges:** The under 10-year-old group and 18-25-year-olds will be the next largest MAU segment with circa 343k and 240k MAU respectively by 2029
- 🕒 **Average User Age:** In 2024 we calculate an average user age of 14, rising to 16 in 2025 and increasing further to 25 by 2029

Metaverse Revenues: **Saudi Arabia**

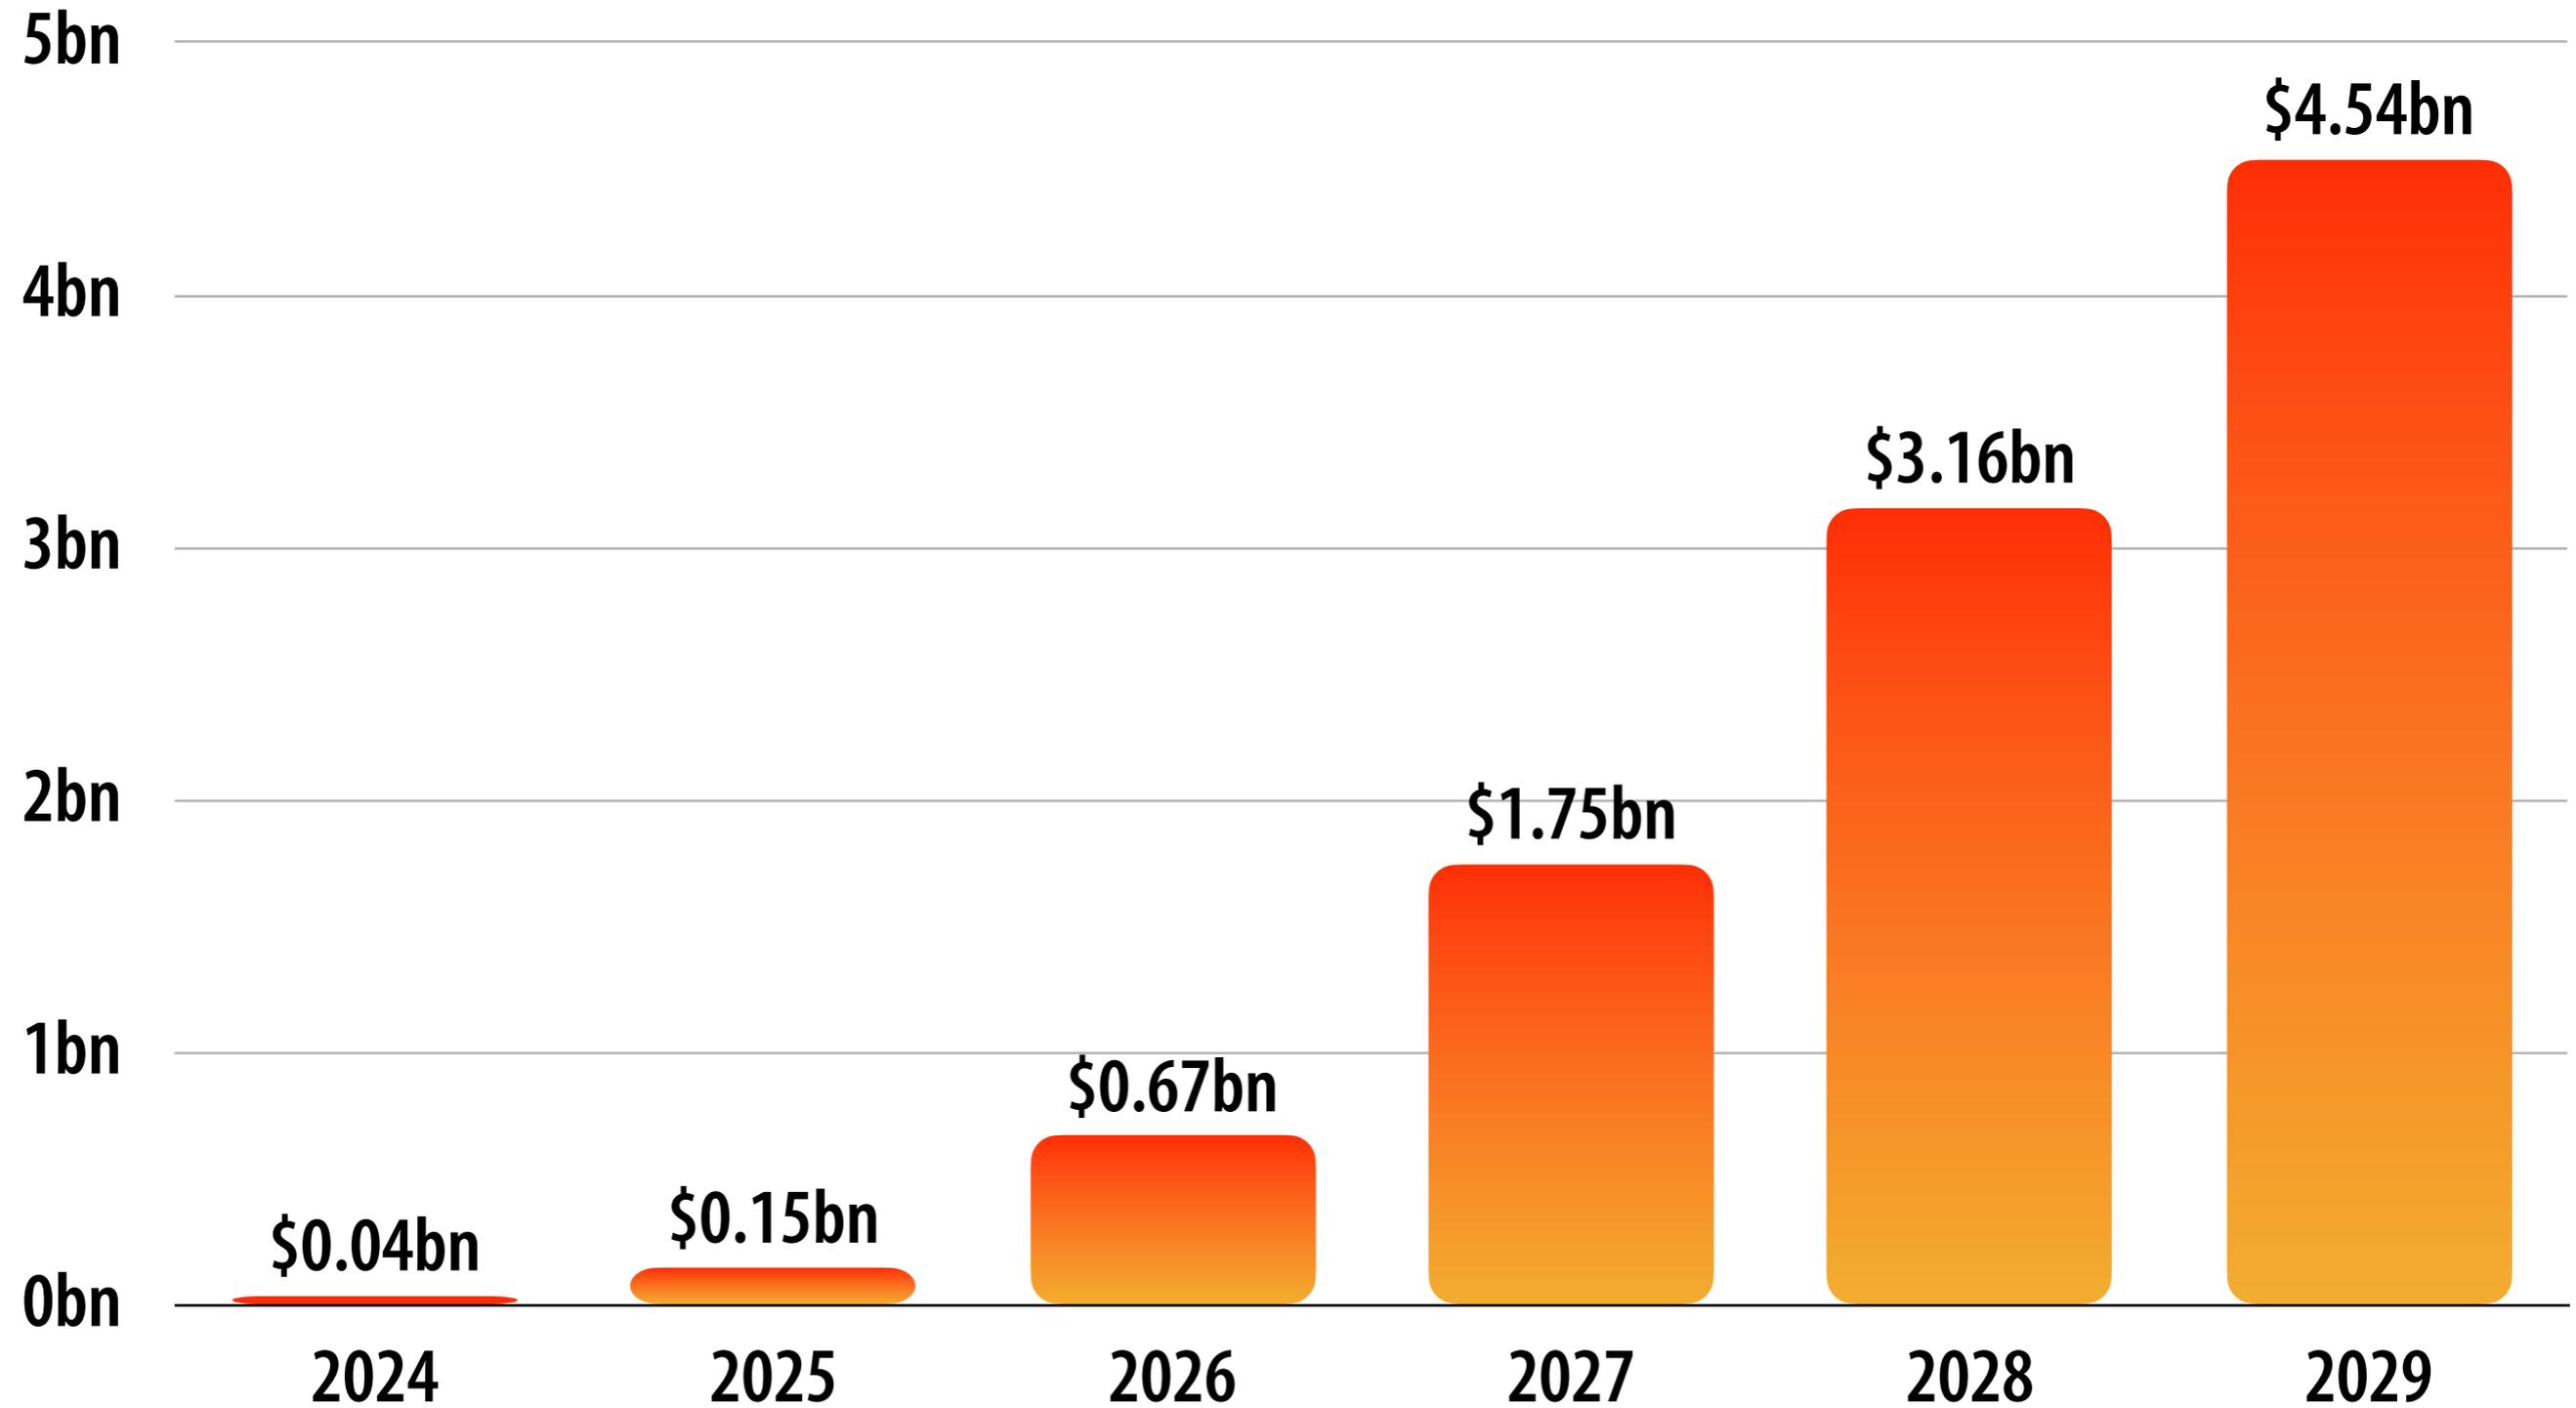

Metaverse Revenues

- ① **User Revenues and Investment:** We have factored end-user-generated revenues and sector investment into a single ARPU data-point to derive Metaverse revenues.
- ② **ARPU Loading:** Due to the high amount of current and short-term planned investment in the Dubai Metaverse strategy, ARPUs are front-loaded with these investments and rear-loaded with user-generated revenues
- ③ **ARPU Growth:** We forecast 2024 ARPU at \$193, rising to \$256 in 2029
- ④ **Revenue Growth:** From a starting point of \$0.04bn in 2024, we forecast revenues reaching \$0.67bn in 2026 and \$4.54bn in 2029
